

## Article 1

### *Fee for expert services*

The Environment Agency of Iceland collects fees in accordance with this tariff. The price per hour for the services of an expert is ISK 9,500 and is ISK 5,800 for a secretary for tasks and services with which the Agency is entrusted by laws and regulations and for which a fee may be collected.

## Article 2

### *Travel costs*

The Environment Agency collects travel and living expenses in accordance with the rules of the State Travel Cost Committee of the Ministry of Finance.

## Article 3

### *Collection*

The final due date of fees pursuant to this tariff is 30 days after the issue of the invoice. Penalty interest is calculated from the due date if no payment has been made on the final due date. Costs resulting from the collection of fees may be charged if the fee has not been paid on the final due date.

## Article 10

### *Review of carbon dioxide emissions reports*

The Environment Agency collects a fee for reviewing carbon dioxide emission reports in accordance with the fifth paragraph of Article 13 of Act No. 65/2007 on the emission of greenhouse gases.

The fee is ISK 209,000.

The invoice shall be issued on the receipt of the report.

In the event that the review of the carbon dioxide emissions report involves greater cost for the Environment Agency than the fee provided for in the first paragraph, the Agency may charge an hourly rate for such extra work in accordance with Article 1. The applicant must be notified of the scope of such work and the attendant cost as soon as it becomes clear that the review will require extra work. An invoice for the extra work shall be issued when the report review has been completed.

## Article 10a

### *Issue of greenhouse gas emissions permit*

The Environment Agency collects a fee for the issue of greenhouse gas emissions permits to operators in accordance with Article 6a of Act No. 65/2007 on the emission of greenhouse gases, as amended.

The fee shall be ISK 315,600.

The invoice shall be issued on the receipt of an application for greenhouse gas emissions permits, the revision of emissions permits or the updating of emissions permits.

In the event that the work in connection with greenhouse gas emissions permits involves greater cost for the Environment Agency than the fee provided for in the second paragraph, the Agency may charge an hourly rate for such extra work in accordance with Article 1. The applicant must be notified of the scope of such work and the attendant cost as soon as it becomes clear that more work is required. An invoice for further work shall be issued when a decision based on the application has been made.

## Article 10b

### *Aircraft operator monitoring plans in the EU Emissions Trading System (EU ETS)*

The Environment Agency collects a fee for the approval of aircraft operator monitoring plans in accordance with the first paragraph of Article 14e of Act No. 65/2007 on the emission of greenhouse gases, as amended.

The fee shall be:

- a. ISK 239,600 for aircraft operators with either fewer than 243 flights per period for three consecutive four-month periods or flights with total annual emissions of carbon dioxide lower than 10,000 tonnes per year.
- b. ISK 315,600 for other aircraft operators.

The Environment Agency collects a fee for the approval of a revised monitoring plan in accordance with the first paragraph of Article 14e of Act No. 65/2007 on the emission of greenhouse gases, as amended.

The fee shall be:

- a. ISK 182,600 for aircraft operators with either fewer than 243 flights per period for three consecutive four-month periods or flights with total annual emissions of carbon dioxide lower than 10,000 tonnes per year.
- b. ISK 239,600 for other aircraft operators.

The Environment Agency collects a fee for the approval of an update of a monitoring plan in accordance with the first paragraph of Article 14e of Act No. 65/2007 on the emission of greenhouse gases, as amended.

The fee shall be ISK 24,800.

An invoice shall be issued after a monitoring plan or a request for the revision or update of a plan has been delivered to the Environment Agency. The Environment Agency, however, may collect the fee in another manner and/or appoint another party to collect the fee.

In the event that the work on the aircraft operator's monitoring plan involves greater cost for the Environment Agency than the fee provided for in the second, fourth or sixth paragraph, the Agency may charge an hourly rate for such extra work in accordance with Article 1. The applicant must be notified of the scope of such work and the attendant cost as soon as it becomes clear more work is required. The invoice for extra work shall be issued when the approval of the monitoring plan or its update has been completed.

#### Article 10c

##### *Aircraft operator report under the EU Emissions Trading System (EU ETS)*

The Environment Agency collects a fee for work in connection with the aircraft operator report on carbon dioxide emissions in accordance with the second paragraph of Article 14e of Act No. 65/2007 on the emission of greenhouse gases, as amended.

The fee shall be:

- a. ISK 182,600 for aircraft operators with either fewer than 243 flights per period for three consecutive four-month periods or flights with total annual emissions of carbon dioxide lower than 10,000 tonnes per year.
- b. ISK 239,600 for other aircraft operators.

The invoice shall be issued after the report has been delivered to the Environment Agency. The Environment Agency, however, may collect the fee in another manner and/or appoint another party to collect the fee.

In the event that work on reviewing the aircraft operator's report on carbon dioxide emissions involves greater cost for the Environment Agency than the fee provided for in the second paragraph, the Agency may charge an hourly rate for such extra work in accordance with Article 1. The applicant must be notified of the scope of such work and the attendant cost as soon as it becomes clear that more work is required. The invoice for extra work shall be issued when the review of the report has been completed.

#### Article 10d

##### *Emissions Trading Registry*

The Environment Agency collects a fee for the accounts of operators of installations, aircraft operators and other entities in the emissions trading registry, in accordance with Article 6 of Act No. 65/2007 on the emission of greenhouse gases, as amended.

The fee shall be:

- a. ISK 34,300 for the creation of an account.
- b. ISK 34,300 annual fee for an account.

The annual fee for an account is calculated from the date that the account is created. The annual fee collected may only be multiplied by  $X/365$ , where  $X$  represents the number of days remaining in the year in question when the account is created.

An invoice, cf. Item a of the second paragraph, is issued once an application for an account has been submitted to the Environment Agency. An invoice, cf. Item b of the second paragraph, is issued in advance at the beginning of each year or in advance concurrently with the issue of the invoice pursuant to Item a of the second paragraph.
