

## Accommodation in Reykjavik

Many of our volunteers stay overnight in Reykjavik before or after their projects. Below, we have included a list of places that have been previously recommended by Environment Agency volunteers.

### Information and booking

Full details about accommodation in Reykjavik and booking information can be found on the [Icelandic Tourist Board](#) website. Reykjavik is very busy with visitors in the summer so we recommend that you organise accommodation before you travel, as it may be very difficult to find a place at short notice.
